

Heard about Best Doctors?

A lot of questions go through your mind when you've been diagnosed with an illness, or you're living with a chronic condition. But knowing exactly what you're dealing with – and getting advice from the world's top doctors – can give you a clear way forward.

As part of the corporate arrangement NRW has with MLC Insurance and Masterkey Business Superannuation, policy holders with Income Protection insurance, have access to a unique service that allows you, your partner, children and parents access to leading medical advice through a benefit called Best Doctors.

This empowers you and your family to seek a second opinion completely at no cost to you or your family. And not just any opinion, but an in-depth review of your diagnosis and treatment plan by a physician nominated as an expert by their peers as one of the best globally in their field.

And you needn't worry about offending your treating specialist. These days, it's virtually impossible for any doctor to stay informed of all of the evolving techniques and medications. Sharing your Best Doctors findings with your doctor gives them crucial information to help decide the best treatment for you.

Members can access Best Doctors by calling **1800 388 097** or by visiting www.askbestdoctors.com
